

The 15/20 Challenge

Save 15-20% energy

What are your ideas for saving energy?

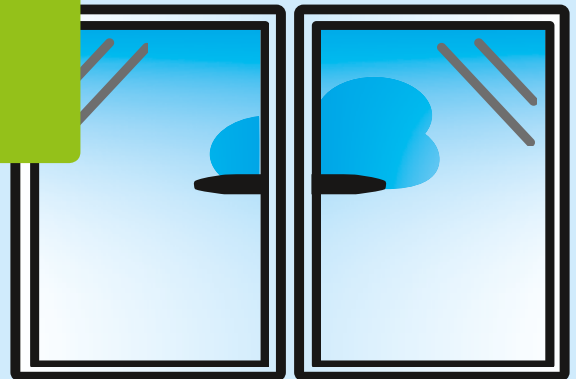

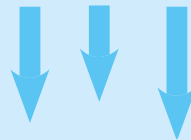

Sign up with us klima@kreisgg.de

My school is participating!

mastering
energy crisis –
winning
the future

**Saving
when
airing**

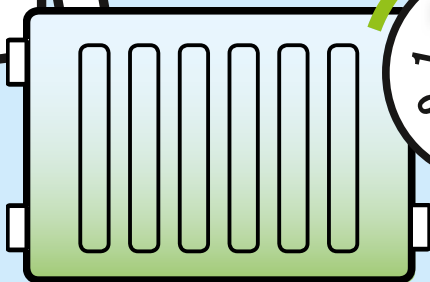

The ventilation
system provides you
with sufficient fresh air.

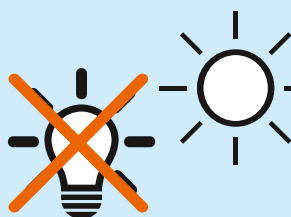

**Saving
when
heating**

approx.
19-20 degrees

Weather appropriate clothing –
we adapt.
1 degree saves 6% energy!

**Saving on
electricity**

Lights off
when it's bright enough,
during breaks and after
leaving the rooms.

Lessons over, Smart-
board + PC + Printer +
Screens –
no stand by.
